JACKSON CITY ITEMS

Local Happenings About Amador's County Seat

A lot of heavy broken castings passed through town Monday, en route from Electra to the Martell depot for shipment as old junk. They represented some of the big machinery put out of commission by the disaster at the plant two or three years ago.

Taxpayers should bear in mind that state the second instalment of and county taxes becomes delinquent after Monday next. Those failing to pungle up their indebtedness to the state and local government on or before that day, will be required to pay 15 per cent additional.

W. A. Newcum, formerly proprietor of the Ledger, and who is in charge of the Alden Anderson campaign for the nomination for governor on the republican ticket, was a passenger for Sacramento Wednesday morning. He has been up at the '49 Flat gravel claim near Volcano, in which he is largely interested.

Jos. Solari, a young man of Jackson, who a couple of years ago secured a position in Stockton, and afterwards became an employe of the Western Pacific railroad in that city, has just been promoted to Oakland. His many friends in this county will be pleased to hear of his advancement.

Notwithstanding the apparently unusually favorable season for all kinds of crops it is reported from the eastern part of the county, that the agricultural outlook is not as bright as it might be. Sown grain and grass are backward. Seasonable rains will perhaps bring them all right.

Lawrence Newman, deputy in the county clerk's office, went to San Francisco early in the week on account of trouble with his artificial leg. He had to go to the city to have the work done. He will be gone from a week to ten days.

Allen Peek came up Saturday from Oakland, on a visit to his relatives.

C. Bess, a former resident of this city, but now living near San Jose, is here visiting his many friends in this section.

The Union Livery Company of Jackson purchased a fine iron gray horse weighing 1375 pounds. The horse was bought at Valley Springs.

A massive bunch of crystal was found on the 27th level at the Kennedy mine, the cubes of which are most beautifully arranged. Embedded in the crystal is a bunch of sulphurets the natural formation of which makes it a most novel curiosity.

J. N. Dean a brick mason contractor from Stockton is in Jackson for a few weeks. Dean came here to put up the brick fire place in the residence which is in course of construction for Dr. Gall, and while here secured the contract to do the mason work in the new front for the Vogel's jewelry store on Main street.

Ruel Parker and wife and son John, who reside in Fruitville, paid a visit to Jackson to attend the funeral services of Mrs. Sanguinetti. Mrs. Parker is a niece of Mrs. Sanguinetti; she will remain in Jackson some time visiting relatives and friends. Mr. Parker returns to Fruitville on Saturday.

Garbarini Bros. have opened up a branch timber yard of the Amador Lumber Co., and will carry a full line of lumber. Their place of business will be on Water street, Jackson, just opposite their machine and blacksmith shop.

A new barber shop has opened at the old stand in the Muldoon building, 50 Main street. Leach and Vela are the new proprietors.

A surprise party was given Mrs. Thomas Coombs, who resides on north Main street, at which about 20 friends assembled and did honor to their hostess.

Red Front sale great success see their ad on page 4.

Road and state poll taxes are now due and payable to the assessor, and will be delinquent in August. Pay up and avoid the penalty.

Electric hose lasts longer than any other brand. For sale at Weller's hardware store.

Continued on Page 5

Miner Has Arm Broken

E. Simoncini, a young Austrian miner employed at the Argonaut mine, met with a very painful accident about 11:30 yesterday morning.

According to his story, a blast had been set off Wednesday night and timbers had been set in the north raise of the 3100 drift, and he was in the act of holding to a set of timbers and picking up into loose rock when without any warning a large bunch of rock dropped upon him, almost covering his body, bruising his head and back, and breaking his arm directly below the elbow.

The young man was immediately sent to the surface, and Dr. Gall summoned, who dressed the injured arm and drove him to his place of residence at the Broadway hotel, South Jackson.

LAI'D TO HER FINAL REST

Mrs. Isabella Sanguinetti of Jackson. Buried Wednesday

A message was received early Monday morning to the effect that Mrs. Isabella Sanguinetti died in San Francisco at an early hour that morning. The fatal termination was not looked for, as a message had been received the previous day to the effect that the end was a question of only a few hours, and those who were desirous of seeing her again in life would have to leave for the city immediately.

The deceased was taken to the city over a month ago for treatment for a complication of troubles, accompanied by partial paralysis of the limbs. The doctors there, however, were unable to repair the inroads which disease had made upon her system, and she steadily grew worse, and her condition become such that it was deemed dangerous to attempt to make the trip back to her home in this city, which was desired by the patient and the members of her family. The remains were brought to Jackson Monday, and the funeral was held on Wednesday. Deceased was a native of New York, 63 years of age. She leaves a family of five children, three sons, and two daughters, namely, Frank V. Lawrence and John Sanguinetti, Miss Dooley Sanguinetti and Mrs. George L. Thomas, all residents of Jackson, beside a number of grandchildren. Also two sisters, Mrs. C. Soracco, and Mrs. Mary Solari, both of Sutter Creek; two brothers, one of whom is in Italy, and the other Ben White of Amador City.

The funeral took place on Wednesday morning at 10:30 a. m. from the late residence 71 Main street. The Native Sons and Daughters of the golden west attended in a body, and lined both sides of Main street to await the last march with their departed loved one. At 10:30 the funeral cortege proceeded to St. Patrick's church, where a requiem mass was celebrated by Father Laffan. At the conclusion of mass, Rev. Laffan most beautifully described the character of the departed soul, and also urged his hearers to prepare for the long journey, which they all must make, quoting, "For it is appointed unto men once to die." The cortege then proceeded to the Catholic cemetery, where the last rites at the grave were said, and the body laid to rest beside that of her departed husband in the family plot. The grave was beautifully decorated, being lined with white cloth, and the ground surface covered with ferns, bridal wreaths, and flags. The floral designs were gorgeous, and represented nearly every design that is commonly set.

The pall bearers were: U. S. Gregory, Chas. Kelley, E. Ginocchio, V. Garbarini, A. Basso, A. Caminetti. There were 16 carriages in line carrying relatives and friends, and a double line of citizens afoot extending from the church to the residence.

Deceased was one of the pioneers of the county. She came to Amador county with her parents in 1853, being then only six years of age. Her husband, who with two others engaged in gravel mining in early days in the vicinity of Jackson Gate, died about 25 years ago. Deceased leave a valuable estate, consisting of business property on Main street in this city.

Woman's Exchange

The Woman's Exchange will be in Geo. W. Brown's office on Main street to-morrow afternoon, and will be in charge of Mrs. E. Williams.

THE LINCOLN CONSOLIDATED

Company to Reopen Well Known Properties in Sutter Creek.

The Lincoln Consolidated Mining Company has been organized and the company has contracted to buy outright a big tract of mining land extending from near the foot of Lincoln Hill to near the Keystone reservoir. The area is over three hundred acres and embraces such well known properties as the Lincoln Mine, West Lincoln, Stewart Mine, and Iowa Mine, also the old Isola mine and other adjacent properties, in Sutter Creek district.

W. J. McGee has been at work for over nine years in getting the title to these various properties cleared and consolidating them into a unit. There were many suits, sales, probate proceedings, contending interests and delinquent taxes that had to be taken care of. The expenses of litigation and delinquent taxes on the Lincoln alone amounted to over \$3000. Then there were the miners' liens on the property that had to be discharged, and the claims of the old stockholders that had to be satisfied. But it is now claimed that the titles to all the properties have been cleared with the single exception of the Stewart mine and a suit is now pending to quiet title to this claim. All of the properties are to be deeded outright to the Lincoln Consolidated Mining Company and the owners are to take their pay in stock with the understanding that the company is to spend \$100,000 in developing the mines.

The fact that the managers of the three biggest dividend paying mines in the county, Messrs Rainsford, Smith and Schmal, are directors of the project is a splendid recommendation for it. We understand that they with Julius Chichizola, will represent the investors on the board of directors and the former owners will have one representative on the board in the person of Mr. McGee. The properties are all well located on the Mother Lode, and there are dividend payers north and south of them. They are no doubt worthy of development.

The opening of these mines will mean much for Sutter Creek and Amador county.

Bill Passer Not Tried.

E. Braghero, who is confined in the county jail awaiting trial on a charge of passing worthless confederate money, has not been arraigned in the superior court yet. There is a question about the grade of the offense, whether a felony or misdemeanor. It is likely that a plea of guilty of misdemeanor may be accepted.

TRUSTEES IN SESSION

Newly Elected Officials Are Sworn Into Office

The city trustees of Jackson met at 10 o'clock last Monday to canvass the returns of the recent election and declare the result, all members being present.

The result of the canvass of the returns showed no change from the vote as published in the Ledger of last week.

The following having received the highest number of votes, were declared duly elected.

Trustees—John Barton, George Lucot, City Clerk—C. M. Kelly, reelected. Marshal—Frank Sanguinetti. Treasurer—C. L. Culbert.

An adjournment was thereupon taken until 7:30 p. m., at which time the newly officers took the oath of office.

The new board of trustees proceeded to reorganize, V. S. Garbarini being elected president by a unanimous vote.

Bonds of Frank V. Sanguinetti for \$5000 with Frank Podesta and Geo. L. Thomas as sureties, approved.

Bonds of C. M. Kelly, with C. P. Vicini and Geo. W. Brown as sureties in the sum of \$5000 each, approved.

Bonds of C. L. Culbert, with Alfonso Ginocchio, P. L. Cassenelli, J. H. Lanshorst and F. W. Rusher, as sureties in the sum of \$5000, approved.

R. C. Bole was appointed city attorney for two years at \$25 per month.

Frank Sanguinetti was appointed superintendent of streets and health officer, at a salary of \$25 per month for each office.

Continued on Page 4

MINE NEWS ALONG LODGE

Big Body of Rich Gravel Ore Is Discovered Near Volcano

Denend Gravel Claim

A fine channel of pay gravel has been discovered on the Denend claim, above Volcano. The claim is located on a small gulch leading in to Sutter creek.

While the bed of the main creek has been exploited for gold through its entire length and width, there are many spots in the side gulches close to the creek that escaped the prospectors of early times. The auriferous gravel uncovered in the Denend mine is one of these spots. The gold-bearing gravel is reported to be from six to ten feet wide, and they took out over \$300 inside of two weeks, all in coarse gold, picked up from the bed rock, without a general clean up of the sluices. Some of the nuggets weighed from 85 to 810 each. There seems to be a considerable body of rich gravel. The mine is operated by drifting, and ground sluicing into a string of sluice boxes.

Argonaut

The Argonaut mine reports another new find on the 2800 level 600 feet south of main ore shoot. The new find has been opened up a distance of 30 feet and shows an elegant grade of pay ore. This ore body is expected to be encountered again on the 3000 level where it will be prospected for. The lowest drift in the mine is the 3300 feet. The shaft however has a depth of 3400 feet. This mine has a very bright outlook, and promises to hold much good for future developments about Jackson.

Bunker Hill

This mine paid its regular monthly dividend of five cents per share on the 15th, amounting to \$10,000. On Saturday last the drift that has been run at the 1950 level to strike the main ledge at that point was just entering the rim of the ore body, and at any time thereafter it was thought the ledge might be broken into. All indications were favorable for continuance of the fine showing met with in the 1750 level, which has opened out even better than the most sanguine expectations, had predicted. The clean up for last month was about the same as the month before, leaving a good surplus after paying the monthly dividend.

Kennedy

For last month the Kennedy company paid a dividend of twenty-five cents per share, amounting to \$25,000, representing the net profits of the month's run. This would indicate a probable gross yield of between \$50,000 and \$60,000 for the 100 stamp mill, which is flattering showing for that many stamps. The Kennedy is the only mine in the history of Amador county that gave employment to that many stamps. And they have been kept running steadily since the big mill started eight years ago, eating up about 500 tons of ore per day.

Superintendent Smith of the Kennedy mine has gone to San Francisco for a few days to attend the monthly meeting of the directors of the mine.

Keystone

This mine is running along steadily, the company is faced with financial problems to furnish ready money with which to meet pressing obligations, and pay the wages of employes. Everything on the surface and in connection with the machinery is in excellent order. The mine was never better equipped to handle ore than now. The urgent need seems to be development work. It is a comparatively shallow mine. Fifteen hundred feet is the deepest point reached, although it has been in continuous operation from the inauguration of quartz mining in Amador in pioneer days. During a large portion of this time it has held the foremost place as a gold producer. There is no doubt in the opinion of expert miners that it would resume its place in the front rank if developed to greater depth.

NO WILDCAT MINING IN AMADOR COUNTY

There is nothing in the shape of wildcatting in the mining industry of Amador county. That term of opprobrium is used to designate that class of fraudulent operations conducted by the get-rich-quick, whose object is to take gold from the pockets of the over-credulous investors, rather than from nature's storehouse in the bowels of the earth. Too often schemes of this kind are based upon lands labeled as mines

which are many miles from any proven mineral field, and which show no mineral indications worth mentioning. Such fake mining propositions are floated to swindle people, and without any idea of embarking in legitimate mining. Any enterprise that aims to prospect any portion of the mother lode region of Amador Co., from Mokelumne clear through to the Cosumnes river, a distance of over 20 miles, is legitimate mining ground, and any prospecting along that lode is in proper mining business.

It matters little whether the property proposed to be worked is an old mine, which has been operated in early days, and abandoned as unprofitable or for lack of funds. Such expenditures furnish no reason for condemning its re-opening as a wildcat scheme. The history of Amador county is full of instances where mines idle for long years, and which were deemed unremunerative by the former operators, have proved grand paying ventures upon further development. Indeed, the best paying mines on the lode have passed through such experiences. The Kennedy, Central Eureka, Argonaut, Zeila, Bunker Hill, Fremont, and even the Keystone, have had their periods of ups and downs. And yet these are working properties to-day, the very life of the mining industry, and several of them rank as marvels of profitable mining. Any effort to work any part of the lode line should be encouraged.

There have been in the past, and probably will be again, methods followed in operating mines, here as elsewhere, which are not commendable. Lack of the necessary capital to develop a property may be the cause, rather than a purpose to deceive. In fact, we consider that the expenditure of money at any point on the main gold bearing belt running through Amador county, is an evidence of good faith in a very promising field and is worthy of encouragement. Capital no doubt has been unwisely spent, owing to extravagant ideas, or poor management. The best mineral fields the world has ever known has been written with more failures than successes. And the failures in Amador county are probably below rather than above the average.

Treasure

This mine, situated on Rancheria creek, between the Bunker Hill and Fremont mines, is being equipped with the necessary machinery to sink 1000 feet deeper, which will carry the shaft to a total depth of 1500. The developments so far indicate a good paying mine within this ground, and the owners intend to develop it in thorough-going manner.

BIG LIME ENTERPRISE

Company to Organize With a Capital Stock of \$75,000

A meeting was held Wednesday evening by the promoters of the proposed lime enterprise near Mt. Echo. The gathering was held in Jackson, and for the purpose of taking steps to place the movement on a working basis. Those present were W. H. Greenhalgh, chairman, A. Ginocchio, G. W. Brown, John Strohm, Jake Newman of Ione, and R. Webb. It was decided to at once organize as an incorporated company with a capital stock of \$75,000, divided into 75,000 shares at \$1 per share. A committee of three consisting of R. Webb, Geo. W. Brown and John Strohm was selected to draw up the necessary articles of incorporation, and to submit the same for signatures at another meeting to be held May 4th. Stock amounting to over \$30,000 shares was disposed of at the meeting. The organization will be pushed along as speedily as possible from now on.

The matter of building an aerial line from the Gebhardt quarry to a point on the Amador branch below Ione was discussed. The line would be over four miles in length. It was, as far as the information at present obtainable held the most economical and feasible method of transporting the product to the railroad. This question will be looked into thoroughly before a final decision is reached. The company has an option on over 300 acres of land bearing large deposits of the finest lime rock to be found anywhere in the state. Everything looks favorable for carrying the enterprise to a successful issue. The intention is to furnish an equipment sufficient to deliver about 200 tons per day to the depot.

THIS PAPER is kept on file at E. C. DAKES Advertising Agency, 770 Market street San Francisco, California, where contracts for advertising can be made or if

FLOOD OF CAMPAIGN LITERATURE.

At this time we are flooded with a deluge of literature from the different bureaus established for the purpose of booming the various candidates on the republican side for nomination for state offices. All these literary bureaus are in full swing from the governorship clear down the list of positions to be filled at the coming election. The communications are in the nature of a request to advocate the claims of some particular aspirant for office. No doubt every country editor is favored to a greater or less degree with the same avalanche of boosting applications. Under the new primary law the country press assumes a very important place in the estimation of aspirants. The dethronement of bossism in party ranks means that a direct appeal must be made to the individual voter for support, and this can be done most effectually through the influence of the press. Hence this flood of campaign literature from the headquarters of the respective candidates. It must be evident to the managers of the candidates that if the newspapers were to attempt to comply with these requests, even in so far as the personal preferences of their respective editors are concerned, an internal strife would thereby be inaugurated within the party ranks that would prove likely a handicap at the general election in November. The large dailies cannot be beguiled into the adoption of this unwise policy. A few, it is true, are boosting favorite sons for nomination, but as a rule the city press is taking no hand in the preliminary skirmishing. Perhaps for this reason the effort to get the country weeklies to force the issue is waxing so pronounced. But the country press is inclined to be as conservative as the big dailies, and this class of personal literature is generally consigned to the capacious maw of the waste basket. If attention were paid to this mass of contributions, the columns of the average weekly journal would be freighted with such notices to the exclusion of more important topics. At the outset of the new primary law the party papers would do well to reach an understanding to keep aloof from contests for nomination honors. It is certainly in the interest of the republican ticket that is eventually presented for ratification in November that as little friction as possible be created by personal fights for place on the ticket. The Ledger is for the republican nominees as determined by the primary election. We may have our preferences based on our judgment of the relative strength and fitness of the rival aspirants, but we deem it advisable to keep such preferences out of print until the voters have spoken. The success of the party is of far more importance than the personnel of the standard-bearer. The party is bigger than any individual member, or any faction contending for supremacy.

A QUEER MOVE.

It is reported that heretofore well-known democrats in various parts of the state are enrolling on the great registers as republicans. This movement is noticed in near-by counties, but has not developed to any extent in Amador county. This apparent drift from democracy is looked upon with suspicion, and comment is indulged in as to the impelling motive. Coming at the first trial of the direct primary law, the inference is that these voters heretofore allied with the opposite party are anxious to take a hand in the selection of the republican ticket, and to this end are willing to forego participation in the make-up of the ticket of their heretofore political faith. The question is, asked whether this drift is designed to aid the democrats by an effort to foist a weak candidate upon the republicans. This reprehensible method is not a new thing in party politics, although revolting to one's sense of right, and a plain violation of the spirit and letter of the election laws. Another version is that it is planned in republican circles to help one or the other faction in scoring a victory at the primaries. This explanation is just as discreditable as the other. In either case it shows that the primary law is just as open to attack from the professional politician as the convention system. The opinion is freely expressed that that the new way of selecting candidates will be more disappointing from a good-government standpoint than the old.

Hyde Murder Trial

Begun at Kansas City

The trial of Dr. B. C. Hyde for the murder of Thomas H. Swope, millionaire philanthropist and uncle of his wife, has begun before Judge Ralph S. Latshaw at Kansas City. Eleven indictments were returned against Dr. Hyde by the special grand jury, which spent ten days investigating every angle of the alleged murder. One indictment was for the murder of Thomas H. Swope; one for the murder of the millionaire's nephew, Chrisman Swope, and the remainder for alleged attempts to inoculate members of the Swope family with typhoid bacteria. On the result of the legal battle, will hinge the action of the law in regard to the other ten indictments. Should Dr. Hyde be acquitted of the murder of Colonel Swope the other indictments, in all probability, will be quashed. Never in the history of Missouri has such an array of legal and professional talent been brought together as that which will be seen at the Hyde trial.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

Ganderbone on Enumerators

And then the census man will come around the house and haw and hum. He'll lead at this and lead at that, and ask the birthplace of the cat. He'll fiddle here and potter there, and take a sample of your hair. He'll measure you between the eyes, and figure and philosophize. He'll make the acid test for wealth, and ask of everybody's health. He'll count the children and the goats, and ask how much you have in oats. He'll kick his shins against his calves, and add and multiply his halves. He'll show his star and stick around, and finally declare his round, and ask the womenfolk their age, and exit bleeding from the stage.

Some fifteen millions, it is said, will go to see how many head there are of us, or black or white, or whether we can read or write, and what the plus of woman is that no one yet is calling his, and other unimportant facts concerning our domestic acts, when most of us, to all intents, would rather have the fifteen cents it costs us per, and do not care how many of us have red hair, or who can read and who can write, so long as simply throwing light upon the matter doesn't make the bachelor spruce up and take the pining spinster to his heart, or teach unlettered folk the art of writing, or as far as we at least are competent to see, improve our happiness a bit, but congress wills, and so be it.

OVERTAXED.

Hundreds of Jackson Readers Know What It Means.

The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains—

Backache, sideache, headache, Early symptoms of kidney ills. Urinary troubles, diabetes, Bright's disease follow.

A Jackson citizen tells here the way to keep the kidneys well.

Mrs. Eva Bastian, Church st., Jackson, Cal., says: "I suffered severely from kidney trouble for a long time. My kidneys were disordered and the secretions so frequent in passage as to cause me much annoyance. The pain in my back was so severe that I could not sleep at night, and if I attempted to turn over, I was in misery. I tried liniments and plasters, and also used a great many remedies but did not find satisfactory relief until I learned of Doan's Kidney Pills and procured a box at the City Pharmacy. I received great relief from the first, and I continued taking them until I was restored to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Saved from the Grave

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs. M. L. Dix, of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do my work, but Dr. King's New Discovery has made me feel like a new person. Its the best medicine made for the throat and lungs." Obsolete coughs, stubborn colds, hay fever, la grippe, asthma, croup, bronchitis and hemorrhages, hoarseness and whooping cough, yield quickly to this wonderful medicine. Try it. 50c and \$1.00. Trial bottle free. Guaranteed by Spagnoli's drug store.

Eat What

You want of the food you need
Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it. Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us. The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

First-class service in every way.

ELECTRIC POWER

Generated by the natural fall of a great river, offers the safest and best investment of the present day.

AN INTEREST in the Sacramento River Power Company (incorporated) which owns and controls one of the greatest sources of water power in the West, at Kennett, Shasta County, California, means an income to you for life, and to your heirs after you. It is a mine of wealth that can never be worked out.

Situated at the head of the great Sacramento Valley, with electric roads projected in every direction and being rapidly built, only 275 miles from San Francisco and Oakland, and 185 miles from Sacramento, to which points electric power is now being transmitted, the market is practically unlimited.

Stock is now selling at \$5.00 per share payable in five monthly instalments if desired, or 5 per cent discount allowed for cash. Only 10,000 shares more are to be sold. Balance of money required for installation of plant is raised by sale of bonds.

By investing now you get a large interest at small cost; and every share you buy will pay 50 per cent annual dividends on its present price when plant is completed. This will be demonstrated to you if you doubt it.

No order accepted for less than 10 shares. Remit by check, draft or money order. If you desire further information, cut out the attached coupon fill it out and mail to us. This will involve no obligation to buy stock, but will bring you full particulars.

Sealed Proposals

FOR
Driving City Sprinkling
Wagon

SEASON OF 1910.

Pursuant to law and a resolution of the Board of Trustees of the City of Jackson, California, adopted April 7, 1910, the undersigned will receive bids at his office in the Mercantile building, Court street, Jackson, California, until 1 o'clock, p. m. on May 6, 1910, for doing the following work, to wit:

Driving the City Sprinkling Wagon during the coming season. Contractor to furnish a first-class four-horse team and driver over twenty-one years of age, work to be prosecuted ten hours a day, seven days a week.

The successful bidder will be required to give security in the sum of \$50.00 for the faithful performance of the work, and will be required to water the public streets of the City of Jackson to the satisfaction of the City Officials, according to specifications on file in the office of the City Clerk. Failure to do will work a cancellation of the contract, and subject the bidder to the penalty of his bond.

Right reserved to reject any and all bids.
C. M. KELLEY,
City Clerk,
at 183

NOTICE FOR PUBLICATION.—01913

Department of the Interior,
U. S. Land Office at Sacramento,
California, March 5, 1910.

Notice is hereby given that Frances Newton Denend, of Volcano, California, who, on March 18, 1903, made H. E. No. 7498, for SW¼ of NE¼, S¼ of NW¼, Section 1, and SE¼ of NE¼, Section 2, Township 7 N., Range 12 E., Mount Diablo Meridian, has filed notice of intention to make final five year proof, to establish claim to the land above described, before the U. S. Commissioner for Amador county, at his office in Jackson, California, on the 16th day of April, 1910.

Claimant names as witnesses:

A. B. McLaughlin, Robt Maxwell,
M. Robinson, of Volcano, California,
and W. Dent of Oleta, California.

JOHN F. ARMSTRONG,
mar11 Register.

Notice of Commissioner's Sale on Foreclosure of Mortgage

In the Superior Court of the county of Amador, State of California.

Helen K. Walker and Eleanor M. Fonda, plaintiffs, vs. Gold Top Mining Company, a corporation, First Doe, et al, defendants.

Under and by virtue of an order of sale and decree of foreclosure issued out of the Superior Court of the county of Amador, State of California, on the 4th day of April, 1910, in the above entitled action, wherein Helen K. Walker and Eleanor M. Fonda, the named plaintiffs, obtained a judgment and decree against the Gold Top Mining Company, defendant, on the said 4th day of April, 1910, which said decree was, on the 5th day of April, 1910, recorded in Judgment Book "4" of said Court, at page 381, I am commanded to sell:

All those certain lots, pieces or parcels of land situated in the county of Amador, State of California, and bounded and described as follows, to wit:

The Orchard Placer Mining claim, being the north ½ of the southeast ¼ of the southwest ¼ of Section 33 in Township 7 North Range 12 E., M. D. B. & M. and containing 20 acres, more or less, together with all rights and privileges appurtenant thereto.

Also, all of Lot 7 in Block 4 in the town of Pine Grove, Amador county, State of California, and containing 24.91 acres of land, more or less, together with all rights and privileges appurtenant thereto.

Notice is hereby given that on SATURDAY, the 30th day of APRIL, 1910, at 10 o'clock a. m. of that day, in front of the Court House, in the City of Jackson, county of Amador, State of California, I will, in obedience to said order of sale and foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiff's judgment, with interest thereon and costs, to the highest and best bidder for cash, in gold coin of the United States.

Dated the 5th day of April, 1910.

JAS. JAY WRIGHT,
ap8 Commissioner.

Assessor's Notice

Jackson, Cal., February 21, 1910

Jone	March 7, 8, 9, 10, 11, 12, 13, 14, 15, 16
Lanaha Plana	March 14
buena Vista	March 15
Forest Home and Copper Hill	March 17, 18
Plymouth	March 19, 21, 22, 23
Oleta	March 23, 24
Jackson	March 26
Drytown and vicinity	March 28, 29
McLaughlin	March 30
Volcano	March 31 and April 2
Defender	April 1
Pine Grove	April 4, 5
Amador City	April 6, 7, 8, 9
Sutter Creek	April 11, 12, 13, 14, 15, 19
Jackson	April 18 till June 30

When I will close my Assessment Roll.
Demand is hereby made for your Road and Poll Tax: It is now due, and becomes delinquent August 1st.

CLARENCE E. JARVIS,
fe25 Assessor

FROM OUR EXCHANGES

News of Interest from
Towns Surrounding
• County Seat

Frank Huberty is suffering from a lame shoulder, caused by being bitten by a horse some two weeks ago. The bones in his shoulder are supposed to have been crushed by the strong jaw of the horse.—Citizen.

There was no excitement attending the city election Monday. Voters to the number of four hundred and eighty eight entered the booths and deposited their ballots. Friends of Ben Hall and W. H. Dennis had carriages and wagons conveying their supporters to the polls. Other candidates had no opponents. Three trustees were to be elected. The vote was:—Trustees, J. B. Oneto, 385; M. L. Scott, 381; H. M. Simpson, 379, clerk, B. A. Rehm, 400, marshal, W. H. Dennis, 298; Ben Hall, 166, treasurer, A. E. Elsbree, 392.—Sonora Banner.

The city election passed off quietly last Monday, the total vote polled being 460, just two less than that polled last year. The following is the result:—Trustees, S. G. Beach, 246, N. Fox, 244 H. K. Marks, 237, marshal, P. J. Hall, 152; city clerk, C. H. Weatherwax, 345; treasurer, Max Mierson, 340.—Mt Democrat.

The Echo learns that the Ransome Concrete Co. has twenty men working at the Barnett quarry. They will begin shipping rock shortly.—Echo.

George Vau Vleck, who has a nice little mountain ranch some miles up the State road near Camino, where he has a fine orchard started and also grows considerable garden truck, has presented the Board of Trade with some samples of his last crop of Burbank potatoes. Four of these tubers when laid end to end on the floor measured four feet and five inches in length. They are from to and a half to four inches in diameter, and very smooth and sound. One potato would suffice for a meal for an average family, and another thing is that they are not watery like so many of the potatoes grown on low valley land.—Nugget.

Mr Hancock is making many improvements in and around his livery barn. Besides cleaning up things generally, he has bought several sets of new harness, having all his buggies and wagons put in fine condition, and getting things ready to treat his customers to the best.—Echo.

Contractors Order Large Traction Engine

Jas B. and Matt Blair made an extensive trip in Jim Mitchell's auto last week, and while seeing a good deal of country, transacted some business which will mean much to their lumbering enterprise in this county. Last Thursday they went via Coloma and Cool to Auburn, where they spent the night at the Ernest Birdsall olive farm on Aeolia Heights. Friday they went to Sacramento, and on Saturday to Stockton, where they closed a deal for a \$10,000 70 horse-power traction engine, which they expect to have in operation by the 10th of May, between their new mills on Plum Creek and their lumber yards in this city. The engine is one of the newest design in that class of machines, and weighs 50,000 pounds. Mr. Paul Weston an expert engineer who formerly ran a traction engine in this county, was here a few weeks ago, and went over the ground with Mr Blair and it was decided that a machine such as the one now being built for the company, is entirely practicable with the requirements of the business.—Mt Democrat.

Pointers for Party Candidates

Qualification of Signers of Nomination Papers.—Signer must be enrolled on great register of 1910 and registered as affiliated with the same party (Republican or Democrat as the case may be) as the candidate whose nomination paper he signs. He must sign but one paper for each office to be voted for, but may sign one paper for every office to be voted for in his district.

Number of Signatures.—Not less than 3 per cent nor more than 10 per cent of the total vote cast for the elector who received the largest vote of his party at the preceding presidential election. Signatures must be secured in at least one fourth of the election precincts in which the candidate is to be voted for.

Verification Deputies.—Each candidate may designate, for the purpose of securing signatures, one or more special verification deputies, who qualify by filing with the County Clerk an affidavit setting forth such selection as deputy. The same deputy may be designated by a number of candidates for different offices in the same party.

No candidate is permitted to verify signatures by his own nomination papers.

Time of Filing Papers.—Nomination papers must be filed with the County Clerk at least 20 days prior to August 16, the date of the primary election.

Filing Fees.—Candidates for county offices are required to pay a fee of \$10 each to the County Clerk when nomination papers are filed. No fee required from candidates for township offices.

All necessary papers may be had at Ledger Office, at small cost, also full instructions.

FROM OUR
CORRESPONDENTS
**SUTTER

April 21.
Miss Kate Soracco arrived here from San Francisco Monday evening, and will make a brief visit with her parents and relatives. Miss Soracco came up to attend the funeral of her aunt, Mrs. Sanguinetti in Jackson, Wednesday.

Andrew Riley arrived here from Jennie Lind, Calaveras county, last week, for a brief visit to the home folks and old friends.

Excelsior Rebekah Lodge will initiate six candidates next Wednesday, the 27th instant, after which a banquet will be served and enjoyed with the subordinate lodge of I. O. O. F.

Mrs. Charles Goodno, an old resident of Sutter Creek passed peacefully away at her residence last Friday morning, after a long illness and general debility. The funeral services were held at the M. E. church on Sunday afternoon, and the body laid to rest in the Protestant cemetery by the side of her son, who preceded her to the grave several years ago. The deceased was a member of the M. E. church, an earnest church worker, and highly esteemed for her kind and loving christian character. She leaves a husband to mourn her loss.

Mrs. Jas. Toman left Monday morning for a visit to her daughters in Berkeley and San Francisco.

W. E. Downs and wife left Monday for a brief visit in San Francisco.

F. Soracco and Edgar Deacon were passengers enroute to the bay city Sunday morning, to attend the annual stockholder's meeting of the Central Eureka Mining Co. held in San Francisco today.

Miss Lizzie Sanderson of San Francisco, daughter of John Sanderson, is visiting her father and sister for a week or so after an absence of twelve years. Miss Sanderson is a sister of the Holy Cross in San Francisco, of the Catholic service.

Mrs. Bolton of Canada, with her son and daughter, is visiting her brother, M. D. Nixon, whom she had not met for 25 years. Sutterite

THE JOY OF EATING.
It Is Courted to the Fullest Extent in Berlin.

The Germans in a good many ways get more happiness out of life as they go along than we do. Eating is an innocent pleasure, and they eat oftener and more. No one is required to get up to breakfast. There is never any formal family breakfast. Coffee and rolls are sent to your room, or you can go into the dining room and get them when you choose. Not having had breakfast enough, a German spends all the rest of the day in making up for it. At 10:30 or 11 everybody takes lunch. The laborers along the streets all stop to eat. And in general it may be said that in all places and at all hours it is good form and a matter of course to draw out a substantial sandwich of rye bread and raw ham and go to munching. Women do it at the opera. Students do it at the university between classes. Dinner comes at 2 o'clock. About 5 the maid brings to your room coffee and rolls and perhaps cake. At 8 p. m. is supper. Those who are going out to any entertainment may have supper at 6 or 7. But there is always a long enough intermission at the opera or theater for those who are disposed to take lunch, and most persons are disposed.

There are innumerable restaurants all about the city, and tens of thousands of people eat there, sitting at little tables in the open air right by the sidewalk. After the day with all its cares and meals is over it is a favorite custom to go to a restaurant and sit there for half the night eating and drinking and listening to music. No city in the world hears so much good music so cheaply as Berlin. And everybody who is anybody knows enough about music to talk with some intelligence.—Berlin Letter to Springfield (Mass.) Republican.

Lack of Confidence.
One reason why I must abhor the meat trust, I regret, is that it will not trust me for the meat I'd like to get.
—Christian Science Monitor.

Anxious About Firstborn.
"I guess we'd better weigh the youngster."
"But you weighed him only twenty minutes ago, old fellow."
"Well, maybe he's gained a little."
—Washington Herald.

First Adam Not Worried.
I guess that Adam, lucky right, was never harried about the better men Eve might have married.
—Pittsburg Post.

The RED FRONT JACKSON'S ONE-PRICE STORE.

The Red Front wishes to thank the people of Jackson and Amador County through the medium of the LEDGER for their liberal patronage since the opening of our **Spring Sale**. To those who have not visited us since our opening we wish to state that this **Sale will Close on Saturday, April 23.** We ask you one and all not to miss this opportunity to save your money. The immense crowd of satisfied customers we have had since our opening from all over the country is the most convincing argument we can put to you as to the genuineness of this value giving occasion.

THE RED FRONT

Jackson's Cheapest Dry Goods Store

AMADOR BRIEFS

Miss May Kelley, who teaches at the Drytown school, met with quite an accident on Monday. While on her way from Drytown in an automobile, she was hurled from the auto, and broke her collar bone. W. Hornberger is teaching in her place.

Frank Kemp has secured a position in San Francisco, and was a passenger on the outgoing stage Sunday.

Mr. and Mrs. Clarence Reeves spent Saturday and Sunday in Jackson.

The Amador band played on Main street Sunday night, and was enjoyed by all.

Miss Enid Joy, who has been visiting in Jackson for the past week with her aunt, Mrs. T. M. Ryan, returned home Wednesday.

Mrs. H. Costa of Douglas, Alaska, arrived Wednesday night to visit her mother, Mrs. Mooney.

Mr. and Mrs. Con O'Neil and Mr. and Mrs. Ted O'Neil, have returned to their home at Persian Hill, Calaveras county.

Mrs. Miller, who has been visiting for sometime with Mr. and Mrs. Hinkson, returned to their home in Oakland Tuesday.

The reading club of Sutter Creek met at Mrs. T. Chichizola last Monday.

Mr. and Mrs. John Deaner of Illinois, are visiting with Mr. and Mrs. W. Deaner and family.

Miss Lucia Kerr, who has been visiting at West Point for a few days, returned home Wednesday.

Miss Vera Fenton met with an accident Monday while out riding horseback. The horse got frightened at an auto, and she was thrown from the horse into the ditch. She escaped with a few bruises.

Wm. Deaner has bought a fine span of four bay horses for the purpose of hauling freight and lumber for the Original Amador mine. He says he can do his own hauling at less cost than over the railroad.

Miss Jose Mooney of San Francisco, came up Wednesday night to visit with her mother, Mrs. Mooney. Primrose.

Sporting Notes.

Phillips-Anderson plans a \$50,000 swimming pool.
Ed Geers, the veteran harness driver, is seventy-nine years old.

Frisco basketball players must register with the Pacific Athletic association.

The St. Louis Nationals and Americans have each seventeen pitchers on their ball teams for the coming season.

William J. Glover of Baltimore, who claims the long distance swimming title, has begun training for a swim from the Charlestown bridge to Boston light, in Boston harbor, next summer.

Moving pictures of the tennis matches for the Davis international cup played in Sydney, Australia, between McLaughlin and Long of San Francisco and Brooks and Wilding were brought to this country by Long.

A Mining Accident

An accident occurred at the South Eureka mine early Thursday morning, so we are reliably informed, which very fortunately was unattended by injury to any of the miners. In hoisting the night shift, the wire cable broke when the skip, loaded according to report, with about fifteen men, was about 1000 feet from the top. Luckily the skip jumped the track after going down only two or three feet, and caught on the timbers of the shaft. The 1000 feet of wire rope descended on the men who were being hoisted, but did no damage of consequence. It is a rule with all mining companies to inspect the cables frequently, so as to detect any weakness therein. But in spite of the utmost precaution in this respect, it is next to impossible sometimes to detect a weakness. The exterior may appear perfectly sound, while the interior wire strands may be corroded. An accident of this nature does not necessarily imply a lack of attention in the examination of the working condition of the cable.

Young Austrian Meets Violent Death in Mine

A young Austrian miner named George Vucurovich met a violent death in the Lightner mine at Angels Camp on Tuesday last. While at work in the face he came across a stick of giant powder that had failed to explode, striking it and thereby causing it to explode. The debris struck him about the face and head, causing almost instant death, and mangling him in a terrible manner. The remains were brought to Jackson yesterday, and will be interred in the cemetery of the Greek church this afternoon, under the auspices of the Austrian Benevolent Society, of which organization he was a member. He was 23 years of age, and for a while was employed at the Zeila mine. Some difficulty arose upon the arrival of the body here owing to the absence of a certificate as to the cause of death. It appears a jury was impaneled to hold a coroner's inquest, and after viewing the remains, and before the inquest was held, the body was forwarded here. When the facts were known there was no further objection to the interment.

Hats.

We owe the hat to Asia, for it was in that country that the art of felting wool was first known, and from the most remote periods the art was carried on by the orientals.

A Clear Cut Warning.

"Young ladies," said an absentminded teacher of Latin to his class in Virgil, "I understand that you count upon my calling on you in alphabetical order and prepare your lessons accordingly. I am surprised and disappointed at such conduct. Hereafter I warn you I shall begin at the other end of the alphabet."

British House of Commons.

The house of commons was originated by Simon de Montfort, earl of Leicester, in 1258, to strengthen his own power in opposition to Henry III.

Tin Plates.

The manufacture of tin plates originated in Bohemia, hammered iron plates having been coated with tin in that country some time before the year 1000.

SHENANDOAH VALLEY

Mrs. Pauline Halton passed through this vicinity on Sunday last on her way to the Somerset house.

The birthday party given at Lewie Seeley's on April 11th was quite a success. The rooms were decorated with evergreens and crepe paper. An orchestra of four pieces furnished the music for dancing. At midnight a dainty luncheon was served, a large crowd attending. Everybody certainly enjoyed a fine time. A collection was also taken up for Mrs. Wm. Burner of Fairplay, who has been ill for some time. About 8 dollars was collected.

Mrs. J. F. Brumfield was the guest of Mrs. Geo. Upton on Wednesday last.

Gussie Thompson of Drytown, was the guest of Mrs. Ida Kretcher last Sunday. The young lady also attended the party given at Seeley's.

Mr. and Mrs. F. Brown made a flying trip to Uno Sunday, and spent the day with Mrs. Hagb White.

Mrs. Packard and daughter-in-law spent Sunday with Mrs. Brumfield. Mr. and Mrs. Joseph Wrigglesworth spent Monday with Mrs. Robt. Brown.

The Shenandoah's little team played the big team last Sunday. The score was 16 to 20 in favor of the little team. O-U-Kid.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's cough remedy. Pleasant to take, soothing and healing in effect. Sold by all dealers.

OTHER BRIEFS

Peter Senney last week fell down the steps of the front entrance of the Olympus saloon. His head went through two window panes and his arm through two others. He was badly cut, and bled profusely but no serious injury was inflicted.

Yesterday a marriage license was issued from the county clerk's office, the candidates for a life union being Frank M. Cuneo, aged 21, and Jennie A. Garibaldi, aged 19, both of Clinton.

U. S. Gregory, tax collector, reports that taxes are coming in rather slowly. The amount collected so far on the second instalment is about \$20,000 short of sum received last year up to the time of delinquency. It is expected that this shortage will be materially reduced before midnight of Monday. A number of the heavy taxpayers have not yet settled, and it is certain that these will all pay up before the penalty attaches.

Fred Culbert vs Susie C. Culbert—Motion is to set aside interlocutory decree denied, and decree of final divorce granted.

Columbus Siri vs Giacomo Siri—Interlocutory decree of divorce granted plaintiff on the ground of wilful desertion.

Children Cry FOR FLETCHER'S CASTORIA

Dr. Sprague Attends Medical Convention

Mrs. Sprague and daughter who have been spending some time with her father H. H. Grannie, editor of the Sonoma Index Tribune, at Sonoma, was met by her husband and son at Stockton, Saturday last.

Dr. Sprague then paid a visit to Sacramento where he attended the 40th Annual Meeting of the State Medical Society which was in session there on Wednesday and Thursday.

During the reading of reports on Pelagra a doctor from Alameda county produced two of his patients, whom Dr. Sprague described as having every appearance of imbeciles. There is very little known by the medical profession concerning this dreadful affliction, and this exhibition proved very interesting to the many physicians present, who for the first time had the opportunity to see the real condition of a patient suffering with the disease.

Dr. Sprague and family returned to their home in Jackson last evening.

CITY TRUSTEES IN SESSION.

Continued from Page 1

Frank V. Sanguinetti was appointed pound keeper, at compensation as fixed by ordinance.

J. S. Garbarini was appointed city fire chief for two years, at \$10 per month.

E. S. Petois was appointed city sexton at a salary of \$50 per month, to serve subject to the pleasure of the Board.

W. G. Thompson, was appointed city recorder for two years, compensation fixed by ordinance.

President Garbarini, appointed the following trustees on standing committees:

Ordinance and judiciary, Penry, Leam, Barton.

Fire, water, streets, sidewalks, Barton, Penry, Leam.

Audit and finance, Leam, Penry, Lucot. Cemetery committee, Leam, Barton, Penry.

Health and sanitation, Lucot, Barton, Penry.

A vote of thanks tendered to the retiring members of the board Wm. Tam and Geo. A. Kirkwood for their untiring efforts in looking after the city's welfare from its inception to the present day.

Adjourned to May 5.

DELINQUENT NOTICE

Jose Gulch Mining Company.

Office and principal place of business at Butte Basin (Jackson post office), Amador county, California, and its property and works at the same place.

There is delinquent upon the following described stock on account of assessment No. 9, levied on the 7th day of March, 1910, the several amounts set opposite the names of the respective shareholders as follows:

Name	No. Certificate	Shares	Amount

DONT HIDE YOUR MONEY

The man who hides his money because he assumes to be afraid of banks forgets that it was the bank that perhaps made the prosperity possible which gave him his money making opportunities. Without the bank there would be no large commercial or business enterprises possible, salaries and wages would be low, and money making impossible. It is the bank in the exercise of its function in gathering together the funds of a community and putting them into active use that has brought prosperity.

To hide money is to hinder and hurt prosperity by restricting the circulation of money. Bring your money to the bank.

Bank of Amador County
Jackson, California

BANKING BY MAIL

The Stockton Savings and Loan Society with resources of \$1,000,000.00 offers every facility for doing a banking business by mail. Checks taken payable in any part of the United States. Our system of banking by mail practically brings this great bank to your door. To open an account with us, place the amount you wish to start within an envelope addressed to us and by return mail you will receive a bank book showing the amount of your deposit. The United States mails are safe and no one ever lost a dollar in this way. We solicit the accounts of farmers, business men and others and assure them courteous and liberal treatment.

JACKSON CITY ITEMS

Continued from Page 1

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, Main 75; residence, black 394; Jackson.

I am prepared to go out as nurse to sick ladies in confinement. Mrs. E. S. Pitois, No. 73 E. Court street. m18

An upright piano, in good condition. For particulars, inquire at this office. 1m

A Paulist priest from San Francisco, will open a mission in Jackson on Sunday, May 1st.

A prospector by the name of G. H. Goss claims to have found valuable specimens of uranium on the Georgetown divide in this county. Uranium and vanadium constitute pitchblend, from which radium is obtained, and there are many who are sanguine that uranium will sooner or later be found in paying quantities in El Dorado county. The mineral resources of this section are comparatively little known.—Nugget.

H. Dore, solicitor of the Pacific Coast Paper Company, was in Jackson this week pushing business for his house.

Last night Dr. Endicott presented Amador Aerie 1776, lodge of Eagles, with a magnificent stuffed species of a golden eagle.

Wm. Dent and son of near Oleta are visiting friends in Jackson.

John Donahue, who had his arm so badly crushed that amputation was necessary, was discharged from the county hospital Thursday. Donahue appears to be as jovial as ever, and asked to express to all his friends who so kindly remembered him while in the hospital, his kindest regards. The unfortunate miner was injured at the Zeila mine on the 24th of March. Dr. Gall was his attending physician.

On the 16th of April, a patient at the county hospital named James S. Glenn passed away. He was 76 years old and born in Ohio. For many years he lived in the upper part of Amador county, where he drove a stage line.

C. Bess, for a long time employed at the Argonaut mine, accompanied by Mrs. Bess, has returned to Jackson, and intends again to take up his abode here. He has accepted a position as a boss at the mine.

R. W. Scott, job printer in the Dispatch office, left Monday morning by the auto stage for Lone, to take a week's vacation with his relatives there.

Miss Rose Stasal, after an absence of several months, returned to this city Tuesday, and with her sister Margaret, will make her home here, in the old homestead on Church street.

Chamberlain's stomach and liver tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by all dealers.

BALL GAME DRAWS CROWD

Lack of Team Work Is Cause of Jackson's Defeat

Jackson's base ball nine crossed bats with the city's second team last Sunday afternoon, and were defeated by a score of 8 to 5. The game was interesting throughout, and was highly enjoyed by a crowd large enough to more than pack the grand stand.

Following is the score for the Jackson first and second base ball teams.

SCORE BY INNING

Jackson	1	2	3	4	5	6	7	8	9
Jackson 2d	0	0	0	3	2	0	0	3	0

As the team's manager has now gotten together a team with every indication of being able to develop into a fast set it is to be hoped that liberal patronage will be shown them, both in the shape of tickets and rooting, for all ball teams are subjected to more or less expense, and all teams need their enthusiastic rooters. It might be well to caution the few woolly brained rooters that are found on all grounds, to refrain from personal cutting remarks, as that kind of rooting only tends toward giving the town an ill name, and throws a wrong reflection often times on the team itself.

The present line up is a well selected crowd of clean gentlemen base ball men, who are fully able to defend the county seat's title and who we trust will be supported throughout the season.

While the Second team deserves full credit for its victory, still it must be remembered that they had a severe tryout the week previous with Sutter Creek, and suffered defeat, and that this was the 'big boys' initial game.

Kerr, Cramer, N. Vela and Brown are fine material for any team, and showed elegant team work when crowded. Calvin is dependable in left field and by two very pretty catches in his territory, he greatly assisted his nine to victory. E. Leach was struck by a pitched ball the effect of which nearly put the fast little short stop out of the game and causing 3 errors to be scored against him. T. Leach who was injured in the Sutter Creek game held down the 3d mat and although Thaddeus had a hard time in keeping his sky pie in place, he always managed to take care of the ball when it came his direction.

G. Vela, Ardittio, Delahide and Boro played good ball for the Jackson nine. Kirby who caught part of the game appears to understand the duties, but seem to have an off day, and failed to hold in his balls. Myers who pitched the game deserves credit but also appears to have over confidence in himself, which hurts many promising young pitchers. That he can make good there is no question, and a few games we trust will bring out the necessary life and ginger that makes a game worth going to see.

On Sunday, April 24, Sutter Creek will line up against the Jackson nine at Zeila park. The game will be called promptly at 2 p. m., and promises to be an interesting match.

C. Ludekens Doing Finely

Chas Ludekens, who had his right hand cut off at the Mitchell mine by getting caught in the saw mill, is recovering rapidly from the amputation of the limb at the county hospital. He left the hospital last Wednesday, and will remain at the Ferrari ranch near Butte mountain for a while, so as to be within easy reach of the doctor, who will visit him every day or two, for the present.

Bazaar Planned.

On May 14, the ladies guild of Jackson Episcopal church have arranged to hold a fair and bazaar, and thereby endeavor to raise funds enough to defray certain debts which the church has contracted. A most novel Egyptian kettle will be chanced off that night. The kettle is brass, and hangs by three chains from an antique hanger.

SUPERIOR COURT.

HON. F. V. WOOD, JUDGE

W. H. Storms vs. California Consolidated Mines Co.—Hearing in defendant's application to discharge attachment heretofore levied on the company's property at Amador City. W. J. Snyder appeared for plaintiff, and W. L. Rose for defendant. The court fixed the value of the property attached at \$1000; and that upon the filing of an undertaking in that sum with Fred Werner and W. E. Finn as sureties, and with consent of plaintiff in open court, it was ordered that the attachment be released.

Cuibert vs. Culbert—J. J. Ekel, counsel for plaintiff moved to set aside the interlocutory decree heretofore granted, and plaintiff asked that the decree be made final. Argued and taken under advisement.

Andrew Samsa vs. Milton Bearce et al.—As regards the Mace Company, one of the defendants, the action was ordered dismissed.

Estate of Augusta Wigglesworth—Final account settled and degree of distribution granted.

Estate of B. Ratto—Hearing continued until May 14.

New Suits

William Roberts vs. Nancy Roberts—Suit for divorce—Complaint filed, summons issued.

Estate of Agnes Hartwick—Petition filed praying for decree showing termination of life estate, and order to show cause issued. The complaint sets forth that by reason of the filing of a declaration of homestead during the life time of said Agnes Hartwick, wife of A. S. Hartwick, the deceased gained a life interest in certain real estate, consisting of 80 acres in 1-6-10, 20 acres in 6-6-11, and 70 acres in 36-7-10; that by the death of his wife in November, 1908, the absolute title to the homestead property became vested in the husband, A. S. Hartwick, and a degree of court is asked to that effect.

V. Giovanoni Co vs. G. Orsi—Complaint filed, writ of attachment issued.

Joseph B Ratto as special administrator vs. Rosa Ratto August Grillo and Bank of Amador county. Complaint alleges that Benedetto Ratto died intestate in 1901, and defendant was thereafter appointed special administrator and qualified as such. At the time of his death deceased had the sum of \$4500 on deposit in the Bank of Amador county. That thereafter defendant took possession of said money on deposit, and withheld same from plaintiff, except the sum of \$300; that plaintiff is entitled to the possession of the money so withheld, amounting to \$4200, but defendants refuses to surrender same. Judgment is asked for \$4200 and cost of suit.

Estate of W H Burns—Lawrence A White petitions for letters of administration.

Cholera-Proof Hogs

A hog of the Persian variety may be seen at Sutter Creek., the only one of this species to be found in the county. It was brought from a band of the same kind that is kept at a ranch near Galt. The stock was imported from Persia, and while in size and flavor of the meat this class of hogs will compare favorably with the American product, the main recommendation for the new breed is that it is cholera proof. This, if true, is a strong incentive to stock raisers. Hog raising of late years has proven one of the most profitable industries the farmer can devote his attention to.

Medicines that aid nature are always most successful. Chamberlain's cough remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all dealers.

Initiate Lone Knight

A jolly crowd of Jackson Knights of Pythias went to Lone on Tuesday to help initiate Fred Le Moin in the second and third degree of Lone Lodge No. 84, Knights of Pythias.

Fred Le Moin is an ex-superintendent of the county hospital, and employed at the Preston Industrial school. The knights made the trip in a large auto, leaving Jackson about 7 p. m.

On the return trip at 3 p. m., they encountered a huge oak limb that had fallen across the roadway, and which required the united strength of the party to remove.

Those who made the trip were: Dr. Endicott, Judge Fred Wood, William Snyder, Zeph Dal Porto, J. Datson, and Mr. Kelley.

Card of Thanks.

We wish to thank all kind friends who rendered aid in any way during the last illness and funeral ceremonies of our beloved mother, Mrs. Isabella Sanguinetti.

Jackson, April 21, 1910.

Weak Throat—Weak Lungs

Cold after cold; cough after cough! Troubled with this taking-cold habit? Better break it up. We have great confidence in Ayer's Cherry Pectoral for this work. No medicine like it for weak throats and weak lungs. Ask your doctor for his opinion. He knows all about it. His approval is valuable. Follow his advice at all times. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Always keep a good laxative in the house. Take a dose when your cold first comes on. What is the best laxative for this? Ayer's Pills. Ask your doctor his opinion. Let him decide.

Assessment Notes

County Assessor C. E. Jarvis is getting along rapidly with the field work of assessing. He is now at work in township one, having completed the other portion of the county. He reports a prosperous condition of affairs as a whole. The most noticeable falling off in value has been in the line of live stock. The number of cattle will show a heavy decrease, owing to the hard outlook at the beginning of last fall. Feed was short and the cattle in no condition to face a severe winter, so many stockmen sold their cattle, or as many of them as they possibly could, as a precautionary measure. On the grant lands around lone the shortage is 1700 head as compared with last year and in other parts the shrinkage of this class of property is equally noticeable. There will undoubtedly be a substantial increase of value of the mining industry, that will more than make up the shortage in other lines. The mines never looked better, and consequently they will figure higher on the assessment roll. The total assessment roll will show an increase as compared with last year.

NEW AUTO LINE

W. Thorp, the proprietor of the local garage, started an auto stage line between Jackson and Lone last Monday. The road between the two towns is fairly good, somewhat rough in places, but with careful driving it is believed the trips can be made without unreasonable wear and tear to the machine. The stage leaves Jackson in the morning at about half-past seven, or shortly before the regular stage for Martell, reaching lone for Jackson on the arrival of the Southern Pacific train. It leaves lone for Jackson on the arrival of the passenger train, and reaches this city about the same time as the stage from Martell. The fare is \$1.50 each way, the same as the railroad. On the initial trip Monday there were two passengers for lone.

Convention of School Superintendents

W. H. Greenhalgh, county superintendent of schools left yesterday morning for Riverside, at which place the annual convention of school superintendents will be held next week, and will continue in session three days. These annual gatherings are for an interchange of ideas concerning educational matters, and a discussion of needed legislation for the promotion of school interest. They are deemed of sufficient importance and benefit to be continued. The county superintendent will return the latter part of next week.

Juveniles Have Enjoyable Picnic

A party of nine little misses, chaperoned by Mrs. Chas. Kelley and Mrs. R. Webb, held an enjoyable picnic last Saturday on the hills beyond the Anita mine. They spent the day, amusing themselves as only children can, and in partaking of the many good thing in the shape of refreshments. Miss Marie Weller brought her kodak, and took a number of pictures of the merry little ones. They returned home about five o'clock. Those comprising the juvenile party were, Veryl Huberty, Lucile Huberty, Marie Weller, Henrietta O'Neil, Leotta Huberty, Colette Huberty, Anna Conlon, Christina Marelia, Helen Kelley.

The biggest clubbing offer ever made. Amador Ledger and Bulletin—the leading evening daily paper of San Francisco, only \$3 per year, in advance. Subscribe now.

NOTICE OF PROBATE OF WILL

Of Stephen Kidd, deceased.

In the Superior Court of the State of California, county of Amador.
In the matter of the estate of Stephen Kidd, deceased.
Notice is hereby given, that Saturday, the 23d day of April, 1910, at 10 o'clock a. m. of said day, and the court room of said Court, at the Court-house in the city of Jackson, Amador county, and State of California, have been appointed as the time and place for proving the will of said Stephen Kidd, deceased, and for hearing the application of Joseph Kidd for the issuance to him of letters of administration with the will annexed thereon.
Witness my hand and the seal of said Court this 7th day of April, 1910.
(seal) J. R. HUBERTY, Clerk.
Wm. G. Snyder, Attorney for petitioner.

DOCUMENTS RECORDED.

J P Whitney to The Mace Company, 160 acres, 20-7-13, \$10.

B H Mace, Carrie Mace and Ivy A Yarrington to The Mace Company, 200 acres, section 20, township 6, and section 15, township 7, range 13, \$10.

Peter Vasilovich to Martin Vasilovich, half interest in lot 10, block 1, Jackson, \$5.

U S Patent, to Joseph Schilling, lot 4, 31-8-13.

U S to Favette Mace—Certified copy of patent for 160 acres, 22-7-13.

U S to Chas Gadbar, 40 acres, 21-7-13.

L G Keeney and wife to Zelia Mining Company, lot 12, block 1, Jackson, \$500.

Political Cards

The candidates card of William C. Deaver appears in this issue. He announces himself a candidate for the democratic nomination for supervisor in township three. He is a well-known resident of that part of the county, thoroughly conversant with its needs, and would no doubt, fill the office satisfactorily.

Wm. G. Snyder also has his card in this issue. He is a candidate for republican nomination for district torney, subject to the decision at the primary election. He has been a practicing attorney in Jackson for the past four years, is well posted in law, enjoys the confidence of all who have entrusted legal business in his hands. He would make an excellent legal adviser and prosecuting attorney, and we have no doubt he will get there in November.

Unclaimed Letters.

List of letters remaining unclaimed in the Jackson, Cal. post office, for the week ending April 22, 1910:

Casazza Toni, Casazza Juan, Harker Frank, Jennings Emanuel, Pasquini Manzueto, Smith E. T.

Now is a splendid time to have those pictures taken.

The holiday rush is over, so we can take plenty of time to get acquainted and bring out your best points.

Also—we have some interesting things in new style mountings.

PALMER STUDIO

19 Main St. Jackson, Calif.

LUMBER OUT-PUT STUDIED

U. S. Dept. of Agriculture Investigating Industry

The U. S. Department of Agriculture in connection with a study of the wood-using industries of various States is learning what part of the rough lumber output of our American sawmills passes through a second process of manufacture before it is ready for the consumer. The study is regarded as having an important bearing on the extent to which more economical use of our forest resources can be brought about. So far, the results obtained show that more than five-eighths of the rough lumber sawed is to be counted as the raw material for other industries which convert it into a more highly finished and more valuable product.

In the United States waste in the woods, the mill, and the factory is so great that two-thirds of what was in the tree is lost on the way to the consumer.

The heaviest part of this loss takes place in the sawmills. Much of this mill waste is unavoidable under present conditions, but the greater the demand for the product and the higher its value, the better will economy pay. Waste in manufacture is very small compared with that at the sawmill. Study of the demand of the wood-using industries may be a means of finding out how the mill may profitably market a part of what now goes to the burner in sawdust, slabs, and trimmings.

Statistics of the wood-using industries of Massachusetts, Maryland, North Carolina, and Wisconsin, lately gathered by the Department of Agriculture in cooperation with these States, show that of the total sawmill output 36 per cent is used in the form of rough lumber and 64 per cent is manufactured into other forms of output. If the same ratio holds for the entire country as for these States about 13 billion feet of lumber is used yearly in rough form and 23 1/2 billion feet is further manufactured.

This is the first time that detailed figures have been obtained on this subject. The study which has yielded these figures has also in view to ascertain what commodities are made wholly or partly of wood, the various kind of wood used, their origin, and their cost, as well as other data of value to the growers of timber and to the sellers and buyers of lumber.

In making up the figures, lumber used as bridge timbers, house frames, farm fences, trestles, boardwalks, walls and similar classes of structures, with only such cuttings and fitting as is given it by carpenters, was classed as rough lumber; that made into flooring, finish, siding, sash, doors, frames, panels, stairs, boats, vehicles, boxes, baskets, turnery, woodenware, cooperage, musical instruments, farm implements, furniture, spools, handles and like forms was placed in the class of finished lumber.

The present aggregate population of the four States is estimated by their respective States official to be 9,165,975; the population of the United States in round figures is 900,000,000 according to recent estimates. The average lumber cut in the four States for 1907 and 1908—the one an active, the other a dull year—was 3,753,293,000 feet, and for the United States it was 36,740,261,000. Calculated on this basis, the per capita use of sawn lumber in the four States was 410 feet, and in the United States 408. The per capita use in the four States of lumber further manufactured was 263 feet. These figures indicate a lavish use of lumber in the United States, for our per capita consumption is from three to ten times that of the leading nations of Europe.

Improves Property
D. Biondi, residing on Jackson Gate road has started a winery and which when developed will prove valuable in more than one way. The large arbors are well constructed and will when grown over be a feature of beauty to his home, afford plenty of shade and produce the luscious fruit. They are the regular California grape of the black prince variety.

Price 50 per cent Less than Formerly.

No money required until the work is finished.
Only the best Italian Marble used for monument work.
Call at works near the Catholic Cemetery.

Reformatory Boys Escape

On Saturday evening L. E. Wright, an officer from the Lone Reformatory, passed through Jackson in search of three boys who escaped from that institution. While here information was received by the officer that one of the boys had been captured and returned, and that the others were corralled at Lancha Plana. The officers at once set out for Lancha Plana to recover the refugees, who he said escaped by running way from the guards who carried no arms, just as night was setting in, and escaping in the brush.

The Call of the Blood

for purification, finds voice in pimples, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life pills make rich red blood, give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at Spagnoli's drug store.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

\$6,000 GIVEN AWAY

In a great Geographical Contest inaugurated by McNeil & Co., in conjunction with eastern piano factories. No charge of any kind to enter, all have an equal chance.

Mail this blank (or one similar) to us at once. Write plainly:

I hereby submit my solution of the above pictures, being the names of six counties in California; and I agree to abide by the judges of the contest:

1st.....4th.....
2d.....5th.....
3d.....6th.....

Name

Street No

Have you an Upright or Square Piano or Organ? State which.

If possible give below the names and addresses of two or more of your friends who you believe might consider the purchase of a Piano, Player Piano, or Organ:

Name

Address

Name

Address

This set of Geographical Pictures will interest the grown ups as well as the children, and has a great deal more to it than the mere fun of getting the correct answer.

The most artistic correct answer will receive the first prize, and the balance of the prizes will be distributed in the order of correctness and what in our opinion would be the most artistic solution received.

Every one has an equal opportunity. You know McNeil & Co's way of doing things—just as advertised. We are making this offer at the request of the several factories whose representatives we are in California, and by giving this amount away directly to piano purchasers, direct results can be secured at once, instead of spending their entire advertising, appropriation in expensive magazine advertising.

We want every one interested in Pianos or Player Pianos to enter this contest. You, of course, realize that we want these prizes and every one of these prize certificates to go where they will be properly appreciated. Be sure and enter—yours may be the answer that will secure one of the big prizes; it certainly will, if yours is the most artistic correct answer.

PRIZES

FIRST PRIZE—A beautiful Upright Golden Oak Piano, value \$350; guaranteed ten years.

SECOND PRIZE—Style No. 35 Rotary White Sewing Machine, latest; value \$80.

THIRD PRIZE—75.00 Violin.

FOURTH PRIZE—\$60.00 Violin.

FIFTH PRIZE—\$40.00 Guitar.

SIXTH PRIZE—\$30.00 Mandolin.

Each of the last five will also receive a credit certificate for \$110.00.

EACH CONTESTANT WILL RECEIVE AN AWARD.

Credit certificates will be awarded to each contestant according to merit, value from \$109.00 down to \$17.00.

Every contestant who calls at our store will also receive a copy of sheet music.

These certificates are as good as cash and will be accepted in part payment on the purchase of any new piano carried in stock by McNeil & Co.

DIRECTION FOR ENTERING CONTEST.

Fill out the blank (or one similar) directly under the puzzle picture, and send to our address.

No employee or member of his or her family, nor judges of this contest, nor winners of prizes in previous contest, will be eligible as contestants.

Send in your answer, as the contest closes promptly at 4 p.m. April 26th 1910. The contest will be run in a fair and impartial manner and the contestants must abide by the decision of the judges.

Address all letters to—

RUNNING THE GANTLET.
An Indian Incident In Indiana's Pioneer Days.
David Johnson, one of the early settlers of Indiana, was a noted hunter and at one time was with a hunting party of which John Severns was a member. On that occasion the early settlement of the state was discussed. Mr. Severns, having been there so many years before any other white man, was accepted as authority on all such subjects. In the "Pioneer History of Indiana" Colonel W. M. Corkrum gives one of Mr. Severns' stories as repeated by Mr. Johnson.
Mr. Severns said that in the fall of 1793 he was with half a dozen of his Indian neighbors, hunting, and that he stayed all night at an Indian village. During the night two white prisoners were brought in, and preparations were made for their trial and death.
First two lines were formed facing each other, and the two men were compelled to run the gantlet between the lines. A point some hundred yards beyond the lines of the gantlet was designated as the place that was to be reached to save their lives.
One of the men was of middle age, but frail; the other was a strong, athletic young fellow. The lines were made up of more than 100 Indians, mostly squaws and boys, with enough active men to keep the prisoners from getting away. The young man was the first to make the race. He got through the lane and to the life station without being much hurt.
The older man before he started held up his hands and offered a prayer to God for aid, then commenced the race, which was not more than half completed before he was knocked down by a heavy club in the hands of a squaw and was set upon by the horde of squaws and boys and beaten to death.
As soon as he was knocked down the young man, who was several hundred feet away, ran like a deer and jumped into the throng of Indians and tried to save his friend's life, but was soon overpowered and dragged away.
For this brave act the chief of the village adopted the young man to take the place of a son whom he had lost.
Mr. Severns, on being asked why he did not intercede for the prisoners, said that if he had attempted to interfere it would have cost him his life.
Forgery.
As recently as 1837 forgery was punishable by death in Great Britain.
Durable Ink.
Known as the "old English record ink," there is a special writing fluid officially prescribed by the law of England for use by registrars of births, deaths and marriages.
Submarine Fog Signals.
Submarine fog signals can be heard fifteen miles.
Harps.
Some harps have been discovered in Egyptian tombs the strings of which in several instances were intact and gave forth distinct sounds after an estimated silence of 3,000 years.
Your tongue is coated.
Your breath is foul.
Headaches come and go.
These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's stomach and liver tablets will do that. Easy to take and most effective. Sold by all dealers.
Deafness Can not be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars or any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Maison Ranch for Sale.
Ranch of 535 acres. Partly under cultivation, balance good grazing land. All under wire fence. Good 6 room dwelling, two barns, cattle corrals, and blacksmith shop. Windmill and water system. Situated between Amador City and Ione. For further particulars, inquire of Mrs Alice Patterson, Jackson. f11-1f.

SCIENTIFIC MISCELLANY
Reported weekly for the Ledger.
The New Machine Belts—No Elevator Boy Needed—Home-Made Electric Fertilizer—Egypt's Oldest—Wind-Power Carriages—Pure Iron—A Disinfecting Oven for Cars—Meteor Streams as a Resisting Medium—Troubles of Insulation.
The use in Germany and Belgium of thin belts of steel for driving machinery has been an experiment of great interest. The belts, as described by Reginald Krall to British engineers, are made from about 1-125 to 1-25 of an inch thick and from about 2 to 8 inches wide, and one 6 inches wide and 1-40 of an inch thick readily transmits 200 horse-power. In manufacture two serious obstacles have been encountered. That of obtaining a perfectly homogeneous steel has been overcome by a specially-made steel, which is given a very high temper. The problem of making a joint has been solved by having the ends soldered at the factory by trained men. Brazing was not very successful, and the best results have been obtained with a solder of melting point low enough—not above 200 deg. Cent.—to have no effect on the temper. A special steel tape, placed around the pulleys and stretched to a predetermined tension, is used to find the exact length of belt needed. Bare pulleys are soon polished by the bars, and it has been found better to use a covering of cork and canvas cemented to the pulleys. These belts, showing little wear, are run at speeds as high as 10,000 feet a minute.
The automatic electric passenger elevator requires no attendant. Pressing the usual push button calls the cage if not already in use, and when it stops at the landing the door may be unlocked and opened. It cannot start again until a lever is moved that closes and locks the landing door. In the cage is a push-button for each floor served, and on momentarily pressing one of the buttons the cage moves to the corresponding floor, and there stops, when the door may be opened for the passenger to alight.
In the novel farming of T. Y. Rior-dan, of London, a positive electric current of 10,000 volts or more is sent through a network of wires at a height of 6 15 feet, and the nitric oxides produced are supposed to be washed by atmospheric moisture into lime spread on the soil. The nitrate of lime resulting is one of the best manures.
The honor of being the oldest mummy, representing the most ancient embalming, is now definitely assigned to one Ranefr, whose remains were found by Prof. Flinders Petrie in 1891 near the Medium Pyramid of King Snefru, dating from about 2900 B. C. Though the great age was recognized at once, the mummy was deposited in the Museum of the Royal College of Surgeons in England, and practically forgotten. This seems to have been due to the fact that many mummies as old, and even pre-dynastic, were reported, but a late investigation has shown that there are no genuine mummies in the Cairo Museum or the British Museum earlier than the time of the New Empire, about 1580 B. C. Bodies embalmed in the tenth and twelfth dynasties—2000 and 2200 B. C.—were found in 1907, though so fragile that they could not be moved. The Medium mummy has been of uncertain age on account of its having been found in a plundered tomb, but Dr. G. A. Reisner has lately made discoveries proving that its curious peculiarities belong to the time of the fifth dynasty, about 2700 B. C. This gives the specimen an age 500 years greater than any other actual mummy known and 1100 years greater than any other in a museum.
The new sail vehicle of a German inventor, described by Consul T. H. Norton of Chemnitz, promises good results for speed contests and pleasure purposes on smooth roads and sandy stretches, like sea beaches. Unlike early clumsy sail wagons, this vehicle is very light. It has a light framework supporting a saddle and the mast, and resting on four wheels, one on either side and larger ones in front and behind, the rear wheel and the right side wheel being rigidly connected, as are also the front wheel and left side wheel. The two connecting bars are joined by an axle with hinged attachment at each end. Sitting in the saddle with his feet on the cross axle, the rider can guide the wheels by suitable pressure, and has his hands free for adjusting the sail or using a brake.
The new ingot iron, claimed to be non-rusting, is practically pure iron. Tested in a 25 per cent sulphuric acid bath, in 6 hours an eyeball of this iron lost 16.5 per cent, and one of charcoal iron 77.3 per cent; in 5 hours a railroad spike of the new iron lost 11.2 per cent, and an ordinary steel spike 79.1

per cent; and in 45 minutes an ingot iron nail lost 4.13 per cent, and a common steelwire nail 68.9 per cent.
Cars on the Prussian railways—especially those used for Russian traffic—are often infested with vermin, and a new process of the Julius Pintsch Co. has been adopted for destroying bedbugs, nits, and disease germs without removal of cushions or fittings and without injury to varnish or polish. A disinfecting cylinder of cast iron, 16½ feet in inside diameter and long enough to inclose the car, is used. This is closed at the ends by cast iron heads, and is air-tight and capable of withstanding enormous pressure. The total weight is 297,000 pounds. The car is run into the cylinder, and the temperature is raised by live steam to 114 deg. to 122 deg., when the air is pumped out to a pressure of one-tenth of the normal, the heat being still maintained. Formalin vapor is then introduced. In a test of the plant, the thorough heating of the car required about five hours, rarefying the air took two hours, but disinfectin with formalin was a quick process. Bed bugs and nits were effectually destroyed. Vestibule and dining cars with ceilings, walls and floors that had become wet through were inclosed in the heated vacuum for 24 hours, and were dried in a surprisingly thorough manner. Allowing 10 hours for the disinfection of a car, it is estimated that the total expense is \$8.33, or more than a tenth of the cost of the less complete cleansing by the old methods.
Peculiarities in the motion of Encke's comet have suggested the curious theory that this body is retarded in its course around the sun by the collision with a meteoric ring. Soon after the comet's period had been determined, Encke noticed a gradual diminution, due to nearer approach to the sun, and suggested that this was an effect of slowing down by some resisting medium in space near the perihelion position. Dr Backlund, of Pulkowa Observatory, has been studying the comet, finding that a ring of meteoric particles near the perihelion position may cause the retarding. The shortening has occurred at variable rate, and lack of uniformity in the meteor ring would account for variable influence.
A German investigation has shown that efficiency of some electrical insulators—especially rubber—is greatly lessened by light. Wood and others are much influenced by moisture. All insulation decreases with rising temperature.
The Demon of the Air
is the germ of la grippe, that, breathed in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is electric bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by Spagnoli's drug store.
Clergyman Accused of Taking Ballots
San Jose, April 14.—Rev. E. A. Winning, city clerk of Los Gatos, was arrested by Marshal Shere last night as he was taking home the ballots cast in the municipal election Monday. Candidates Doolen and Derrickson, the former "wet," and the latter "dry," are tied for the third and deciding place on the board of trustees, and a recount is to be made. Winning claims the ballots are in his charge, and he was afraid to leave them in the town hall. The ballots were left in a bank vault, and Winning was released pending further investigation.
Evelyn Nesbit Thaw
Will Go to Paris
A friend of Mrs Evelyn Nesbit Thaw, wife of Harry K. Thaw, authorized the announcement that Mrs Thaw had given up her apartment, and that she would depart for Paris to study sculpture. Mrs Thaw has informed her friends that she is taking this step at the advice of competent teachers, who encourage her to believe that her talent for such work may be advantageously developed.
"I am through with Harry Thaw for all time," Mrs Thaw said to a friend. "I am going to Paris to make my future home."
Mrs Mary C. Thaw still makes her son's wife a monthly allowance, and it is said Mrs Evelyn Thaw has informed her friends that she will take a modest apartment in the outskirts of Paris, while she is studying sculpture.
Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's colic cholera and diarrhoea remedy not only cures promptly but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by all dealers.
When other Flours fail—try Miller's Best.
IMPORTANT
Base Ball Teams Attention
Before placing orders for baseball suits this season don't fail to see Thorpe & Conway, The Clothiers, No 435 E Main street, Commercial hotel building, Stockton. They make anything in the way of a uniform, in any combination of colors, style or price.

BY SPECIAL ARRANGEMENT WITH

THE SAN FRANCISCO BULLETIN

San Francisco's Leading Daily, the

AMADOR LEDGER

Is enabled to offer old and new subscribers

Amador Ledger - Weekly, \$2 per year
The Bulletin - Daily, \$3 per year

FOR \$3.00 Per Year

This is an extraordinary offer, and may be withdrawn at any time, so we would suggest that all old subscribers in arrears pay back accounts that they may take advantage of this special combination sale.

THE BULLETIN is famous from coast to coast for its fight in defense of clean government, and is read by more people daily than the combined circulation of all other San Francisco dailies.

You will appreciate the value of this offer when you consider that any of the other San Francisco papers will cost you \$8 per year.
